Transit System

WWW.HAWKE-HTS.COM

Hawke Installers App makes it easier and faster to carry out the installation of your transit installations.

Designed to be launched from a portable device iOS or Android (smartphone or tablet).

The Installer's App allows the installer to calculate automatically the best configuration for a transit, it exports the material list, drawings with colour-coding and other important information.

Also, the installer can consult product information, installation instructions/tips, watch the installation videos and contact Hawke Transit System for technical support. All of these features help to reduce installation time and avoid potential installation mistakes.
