

HAWKE

Transit System

Hawke Design Software
and Installers App

HDS Hawke Design Software

Hawke Design Software makes easier and faster the design of your cable transit projects, calculating material list and distribution automatically, while maintaining traceability of all the cable data, percentages of saturation per area, etc.

With HDS is possible to import project and cable data from an extern file, managing thousands of cables and transits in few clicks and obtaining material lists, detailed transit drawings and different kind of project and transit reports.

The software allows to modify data and do the recalculation automatically, always giving best combination of frames and blocks in order to save money and time.

Installation drawings and cable layouts facilitates the installation showing the colour coded blocks, helping to save much time and maintaining traceability of the transits.

CHARACTERISTICS

- ◆ Save time designing your projects.
- ◆ Manage big amount of cables and transits.
- ◆ Import cable schedule and project data.
- ◆ Calculate automatically or manually the best combination of materials.
- ◆ Export material list, reports and installation drawings.
- ◆ Modify cables position directly on the drawing.
- ◆ Preview the transit with colour coded blocks.
- ◆ Export a project summary for requesting a quotation quickly.
- ◆ Share the projects through internal server.

APP Hawke Transit Installers App

Hawke Installers App makes it easier and faster to carry out the installation of your transit installations.

Designed to be launched from a portable device iOS or Android (smartphone or tablet). The Installer's App allows the installer to calculate automatically the best configuration for a transit, it exports the material list, drawings with colour-coding and other important information.

Also, the installer can consult product information, installation instructions/tips, watch the installation videos and contact Hawke Transit System for technical support. All of these features help to reduce installation time and avoid potential installation mistakes.

CHARACTERISTICS

- ◆ Save time installing your projects.
- ◆ Calculate automatically or manually the best combination of materials.
- ◆ Modify and adapt configurations manually.
- ◆ Export material list, reports and installation drawings.
- ◆ Modify cables positions directly on the drawing.
- ◆ Preview the transit with colour coded blocks.
- ◆ Export a project summary for requesting a quotation quickly.

TECHNICAL SUPPORT SERVICE

TRAINING

Hawke offers a complete Installation Training program for your installers. The Installation Training also enables your installers to learn the best installation techniques thus saving time and preventing installation mistakes.

The training also demonstrates that **Hawke can be installed much faster** than other transit systems.

This training can include inspection and supervision support in order to detect possible installation mistakes and propose necessary correct actions.

TECHNICAL SUPPORT SERVICE

TRAINING CENTRE

To support everyone in gaining the skills needed to put safety first when installing cable and pipe transits from Hawke, we have designed a straightforward self-education program.

We train our clients in our specific Training Centre to expand your knowledge, sharpen your competitive edge and **save on production time.**

The Hawke Training Centre has all of the necessary equipment needed to ensure that a high level of training is met, in accordance with the requirements of the projects in which our products will be installed.

Hawke's training team is made up of qualified technicians with more than 20 years of experience in installing the Hawke Transit System.
